BioSketch

Lisa Rogers, RN, BS is a Registered Nurse Care Consultant with the Department of Behavioral Health and Developmental Services. She is responsible for working with individuals, families, and community-based stakeholders to provide health supports for individuals with intellectual and developmental disabilities in Region IV and statewide.

Lisa graduated from Chowan University in 2006 with a Bachelor of Science in Physical Education/Sports Science. Lisa taught Physical Education and History at a private therapeutic day school serving students with developmental disabilities and mental health challenges. She moved to Hawaii with her husband (who was in the United States Army) and became a certified Massage Therapist. Finding very little job satisfaction as a massage therapist, Lisa decided to become a Registered Nurse!

Lisa is a graduate from Southside Regional Medical Center Professional Schools, with an Associate Degree in Nursing. She is a recipient of the Roberta Cox Grossman Award for clinical and academic excellence. She is currently enrolled at Western Governor's University, working to complete her Bachelor of Science degree in Nursing. Lisa has experience in Behavioral Health and general Medical Surgical nursing for adolescents and adults. She served as a Charge Nurse on the Adolescent Unit at Poplar Springs Hospital in Petersburg, VA. At Poplar Springs she was recognized as Nurse Leader and Motivator by peers and hospital administration. Recently, she served as Assistant Nurse Manager of the Behavioral Health Unit at Southside Regional Medical Center also located in Petersburg.

Lisa enjoys spending time with her husband, Matt, and two children (Madelyn, 6 and Bohdi, 4) and the rest of her family and friends. She loves trips to the beach, running, soccer, and acting like a fool with her kids.
