COMMISSIONER

## *DEPARTMENT OF BEHAVIORAL HEALTH AND DEVELOPMENTAL SERVICES*

Post Office Box 1797  
Richmond, Virginia  
23218-179

September 16, 2014

Thank you to all who took the time to comment on the Developmental Disability Health Support Network (DDHSN) Draft Plan. The vision of DBHDS is, “A life of possibilities for all Virginians”. Consistent with this vision, the DDHSN mission is to support this life by providing concrete supports and a pathway to community integrated health services.

Overwhelmingly the feedback on the plan was positive and supported the overarching concepts. Requests were made for more developed operational specifics, a timeline for implementation, a possible focus group involving individuals/families receiving complex supports, and mechanisms to evaluate outcomes.

An update to the draft DDHSN Plan has incorporated minor errors corrections and will be posted as the **DDHSN Concept Paper**. This will replace all previous drafts. Moving forward, the department will work toward a plan that addresses the feedback requests with specific goals and objectives to be provided in a separate document.
