He is resistant to taking most medications. He is currently ready for discharge from Catawba Hospital as he is currently maintaining a medication regime that he is agreeable to. However, he may not cooperate if he does not like the medications prescribed and if he does not feel as if he has input. He has requested his medications remain the same upon discharge from Catawba. He will also be receiving supports by REACH. He states taking walks and listening to music helps him to feel calm.	No	External directed destructiveness (e.g., assault/injury, property destruction, stealing), Emotional outbursts, anger, yelling, Sexual aggression or inappropriate sexual behavior, Substance abuse, Symptoms related to MH diagnosis. He is caffeine and nicotine dependent. He currently wears a nicotine patch as he is in a state hospital but states he would like to resume smoking and "dipping" upon discharge. Despite his fondness for caffeinated drinks, he has no other documented substance use issues. He has been evicted from various group homes for issues such as, property damage, shoplifting, threatening language towards female staff, children and community members, peer on peer incidents, and has been known to decline showers and he masturbates with feces. He states taking walks and listening to music helps him to feel calm. Please note the above behaviors, (aside from a few outbursts, due to frustration at being hospitalized) have not been noted since his admission to Catawba.

Will hit others if he is startled or is not feeling well. He will become extremely anxious when in crowded situations or when he is around unfamiliar people in close proximity, this will result in aggressive behavior. Any transition to the community will require an extensive transition period (months). Transition must include perspective staff spending a great deal of time getting to know this individual in his current residential setting. Staff must also be able to manage physical aggression and must become extremely familiar with this individuals method of communication, i.e. his facial expressions.
