Don't Forget....

- Don't forget to make sure that your facility has a user listed as public contact!
- Facilities typically list a central intake number or admissions contact.
- Without a checked "public contact" user, the facility information will not appear on the bed registry.

Public Contact [24]	Updater Admin [20]	Updater [19]	Name
<input checked="" type="radio"/>			Admissions, Psych
<input type="radio"/>			Gray, Nichole
<input type="radio"/>			Man, Joe

- Please check your facility users periodically. The Admin users for a facility are able to delete users who are no longer employed with the agency or no longer need access to the registry.
 - *There can only be one Updater Admin at a time.
 - *If the Admin user needs to be updated, please contact Deborah Waite.
- Don't forget that you can return to an original PBR search to include additional information about the search or comments related to patient placement.

Updates

- The Preadmission Screening Modules are currently being revised! Information about the Psychiatric Bed Registry as a tool will be included as part of the local training process.

New Training Materials

VHI has added updated training materials under the Help menu.

This PDF can be found under “Using the PBR To Search.”
